

LEO District 410W 2023/2024

District 410W Leo Representative report April 2024

The Namibia indaba saw the Leo clubs in full motion, in attendance were members from Swakopmund Alpa, Swakopmund Omega, Walvis Bay and Henties. The interaction program was well supported by all delegates from the cabinet. Lions Jonathan and Allison with support from the local Leo advisors put a good program together. Zoom discussion included members from Leo Clubs of Tukkies, UCT, Brackenfell and Durbanville. Leo Chair Johnathan was the first Leo club to pledge to LCIF, one of the many firsts for Leos in many years.

IF all goes well the Leo clubs from Henties Bay, Walvis Bay, Mossel Bay and UCT should be registered in this year, before 30 June 2024. Clubs identified for the next year includes Tsumeb and Windhoek in Namibia and Stellenbosch and Table View by December 2024.

The Leo gathering in Wilderness is planned to coincide with the Ubuntu convention and we anticipate an attendance of twenty to thirty members.

Durbanville is in new hands and should grow steadily from here on. Swellendam under guidance from Leo advisor Alice has resurrected like the phoenix with 30 new members.

Thank you for the opportunity to have been par of this journey. Please keep the momentum growing and support this project. Focus must be given to develop and train LEO Advisors in the district.

I humbly request that the district budget for Leo development be increased to R10 000.

May the vision and commitment of our Leos see growth in exponential leaps.

David Jacobs
